PLEASE NOTE:

- All colours including print and product are for visual purposes only and should not be regarded as the actual colour of the product and print.
- Some products may vary from batch to batch and may differ from previous orders.
- The colour and texture of a product can also have an effect on the final print colour.
- By approving this order we accept that you understand these terms.

1. Your order will not go in to print and production time cannot be confirmed unless artwork has been approved via the online system.
2. Once printed, artwork cannot be amended, mistakes must be rectified at visual stage.
3. Claims for faulty goods will be honoured, only if the goods are returned to us. We will not issue credits/refunds for items that have been distributed. Please ensure that goods are satisfactory before distribution
4. We are not responsible for delays during transit.

By approving this visual, you are confirming you have thoroughly checked all information, including layout, fonts, spelling, print colours, print size, print position, product, product colour and quantity.

To proceed, please approve visual via the online system.

FLOOD RED AREA WITH
BACKGROUND
COLOUR FOR BLEED

Norway spruce - Picea abies
Sow seeds indoors from February in
mall pots filled with good quality seed
compost. Place 2 or 3 seeds on the
surface, cover with a little more compost
and gently firm down. Place in a warm
20 degrees), light position and keep
well-watered until the seedlings appear.
When the seedlings are large enough to
handle they can be transplanted into
larger pots and then moved outside
after the risk of frost has passed.
