## PLEASE NOTE:

- All colours including print and product are for visual purposes only and should not be regarded as the actual colour of the product and print.
- Some products may vary from batch to batch and may differ from previous orders.
- The colour and texture of a product can also have an effect on the final print colour.
- By approving this order we accept that you understand these terms.

1. Your order will not go into print and production time cannot be confirmed, unless artwork has been approved via the online system.
2. Once printed, artwork cannot be amended, mistakes must be rectified at visual stage.
3. Claims for faulty goods will be honoured, only if the goods are returned to us. We will not issue credits/refunds for items that have been distributed. Please ensure that goods are satisfactory before distribution
4. We are not responsible for delays during transit.

By approving this visual, you are confirming you have thoroughly checked all information, including layout, fonts, spelling, print colours, print size, print position, product, product colour and quantity.

To proceed, please approve visual via the online system.

## Growing Instructions

### Chives - *Allium schoenoprasum*

Sow indoors all year round or under glass from March to June. Sow in pots or trays on the surface of barely moist seed compost. Cover with a sprinkling of finely sieved compost and place in a warm, light position until germination which takes 14 - 21 days.

When seedlings are large enough to handle, transplant into pots with 4 seedlings per pot and grow on in cooler conditions. Sow outside from early spring directly in a well prepared seed bed in full sun. Sow seeds thinly at a depth of 1cm in drills 30cm apart. When large enough to handle, thin out the seedlings within each row to 20cm apart.
