PLEASE NOTE:

- All colours including print and product are for visual purposes only and should not be regarded as the actual colour of the product and print.
 - Some products may vary from batch to batch and may differ from previous orders.
 - The colour and texture of a product can also have an effect on the final print colour.
 - By approving this order we accept that you understand these terms.
1. Your order will not go in to print and production time cannot be confirmed, unless artwork has been approved via the online system.
 2. Once printed, artwork cannot be amended, mistakes must be rectified at visual stage.
 3. Claims for faulty goods will be honoured, only if the goods are returned to us. We will not issue credits/refunds for items that have been distributed. Please ensure that goods are satisfactory before distribution
 4. We are not responsible for delays during transit.

By approving this visual, you are confirming you have thoroughly checked all information, including layout, fonts, spelling, print colours, print size, print position, product, product colour and quantity.

To proceed, please approve visual via the online system.

Max print area: 84mm x 58mm

GROWING INSTRUCTIONS

Seedballs

Up to 30 wildlife-friendly wildflower seeds. The seeds are encased in clay and peat-free compost, they are essentially already 'planted'.
Simply scatter onto bare soil or compost (avoid scattering on grass) on a garden bed or in a plant pot, leaving at least 10cm between each ball.
The outer clay helps to prevent birds and insects from eating the seeds and the germination process can take 4-6 weeks from scattering.
